ABOUT ME

Motivated Computer Science Engineering student with strong skills in Python, Data Science, and Machine Learning. Experienced in developing predictive models and deploying web applications using Django. Seeking an entry-level role in Data Science/Software Development to apply technical expertise and problem-solving skills to real-world challenges.

SKILLS

Programming Languages: Python, SQL
Web development: HTML, CSS, JavaScript
Framework / Tools : Django , React.js

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern, skilldzire | apr 2025

- Built and trained ML models using TensorFlow & Keras, achieving 87% classification accuracy on real-world datasets.

Data Science Intern, skilldzire | Jun 2024

- Developed predictive models in Python & Pandas, improving pipeline efficiency by 30%.
 - Achieved an R^2 score of 0.82, enhancing accuracy of business forecasting models.
-

EDUCATION

Siddhartha Educational Academy Group of Institutions

PROJECT

Acute Lymphoblastic Leukemia Classification (CNN)

- Leukemia is a type of blood cancer that affects people of all ages.
 - Implemented CNNs to classify peripheral blood smear images for early leukemia detection.
 - Improved model accuracy by leveraging deep learning techniques and data preprocessing.
-
